

## Uncle Pet Premium Rabbit Pellets

### Rabbit Feed

### Supplementary feed for rabbits

Our Uncle Pet Premium Rabbit Pellets are a supplementary feed for all rabbit and dwarf rabbit breeds that is high in crude fibre. Free of cereal grains, these pellets are highly digestible and easy on your rabbit's sensitive digestive tract. The high fibre content encourages chewing, which helps to support correct dental attrition. The addition of apple pomace makes these pellets particularly palatable, while also providing valuable pectins, which support digestive health.
