Feeding recommendation:

Our Carnebello Cow Ears is no complete feed for daily use, but you can offer it several times per week to support the dental hygiene of your dog.
Please don´t forget to offer enough drinking water and even if cow ears are generally considered safe, please stay around while your dog is chewing it, to ensure your dog doesn´t swallow the whole last bit and choke.

As we are offering a completely natural product, the chews can look very different in colour, form or size.
